

100' HEAVY-DUTY AERIAL PLATFORM

A COMMAND CENTER. A STAGING AREA. AN EMERGENCY ROOM. ENGINEERED TO MULTITASK.

Whether you're dealing with a crowd of firefighters, loads of equipment, or even immobilized victims, things can get pretty tight. Fortunately, Pierce® baskets are the roomiest in the industry. Every square inch has been designed to improve your safety and help you perform at your peak.

At either 22 square feet or 18 square feet, Pierce's 100' heavy-duty platform basket can carry a rated load capacity of 1,000 lb, plus accessories. Every foot is working space. And Pierce's Lyfeline™ exclusive accessories – including ladders, hoists, stokes baskets, and rappelling arms – are mounted on the front side of the basket, thus freeing space inside. Swing-in doors eliminate the need for a gate, so firefighters can quickly and easily step onto the large, 17" wide self-draining deck. The Pierce basket leveling system allows for smooth, precise leveling throughout the full range of aerial operation.

Specifications

Custom Chassis Choices	Arrow XT™, Dash® CF, Quantum®, Velocity®
Vertical Reach	100'
Horizontal Reach	93'
Operating Range	-5° to 75°
Basket	18 or 22 sq ft
